SUNDANCE
PAYMENT SOLUTIONS

PAYTRACE

Sundance's Next Generation in B2B Payments

PayTrace™ has the advanced tools to simplify and streamline your business-to-business, professional services or government payments strategy. PayTrace offers a full-featured virtual terminal that is capable of online and email invoicing, recurring billing, advanced data management and unique money-saving interchange qualification.

CUSTOMER RECORDS
Customer information is securely stored in a PCI compliant environment.

CUSTOMIZABLE DATA & REPORTS
Collect, merge and analyze data that's most useful for your business.

USER PERMISSIONS
Over 30 different levels of permissions available. Load an unlimited number of users with customized access levels based on job function.

LEVEL III PURCHASE CARD SAVINGS
PayTrace automatically detects transactions that will benefit from Level II and Level II data, enabling merchants to save money with a single click!
